### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Pous on February 4, 2004.

The application has been amended as follows:

IN THE SPECIFICATION:

Page 11, line 17, "least" is deleted, and – most – is inserted in its place.

2. This amendment clarifies the specification, by removing contradictions between page 11, first paragraph and page 11, second paragraph.

### REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the closest prior art is to EP 377 980, which teaches the making of a musical instrument body by impregnating a ceramic with a liquid resin. However, this reference does not teach or suggest the claimed modulus of elasticity between 10 and 100 Gpa and the maximum internal friction, represented by the natural logarithm of the inverse of said internal friction, equal to  $1 \times 10^{-3}$  as required by independent claim 1.

The Examiner further notes, that after review of applicant's amendment of Sept. 30, 2003, at pages 6-7, it is understood as the phrase "maximum internal friction, represented by the natural logarithm of the inverse of said internal friction, equal to  $1 \times 10^{-3}$ " is understood, " $1 \times 10^{-3}$ " represents the highest acceptable internal friction, even though the magnitude of  $\log Q^{-1}$  is the lowest acceptable number (e.g., acceptable  $\log Q^{-1}$  numbers would be  $2 \times 10^{-3}$  or  $1 \times 10^{-2}$ ).  $2 \times 10^{-3}$  or  $1 \times 10^{-2}$  represent exemplary acceptable numbers, and the claim is not limited to such numbers.

The Examiner also notes that the Examiner's Amendment above resolves the concerns raised in the previous Office Action as to the contradictory language between page 11, first paragraph (using the term " $at\ most\ 1 \times 10^{-3}$ ") and page 11, second paragraph (originally using the term " $at\ least\ 1 \times 10^{-3}$ ").

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine A. Bareford whose telephone number is (571) 272-1413. The examiner can normally be reached on M-F(6:30-4:00) with the First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive P. Beck can be reached on (571) 272-1415. The fax phone numbers for the
